

Goat anti-Human IgG (H&L) Antibody-BIOTIN

E61C00104

- Catalog Number:** E61C00104
- Amount:** 100µg/100µl
- Format:** Affinity Purified, Liquid
- Form of Antibody:** Goat anti-human IgG (H&L)-BIOTIN in 10mM Sodium Phosphate, 150mM Sodium Chloride, pH 7.2
- Storage/Stability:** Short-term store at 2-8°C. Long term store at -20°C. Avoid multiple freeze/thaw cycles. If the reagent is being diluted, it is recommended that only the quantity to be used within one week be diluted.
- Immunogen:** Purified Human IgG.
- Purification:** >90% pure (SDS-PAGE). Immunoaffinity purified. Product is 0.2 micron filtered.
- Specificity/Sensitivity:** Reacts with heavy chains on human IgG and with the light chains on all human immunoglobulins. By Immunoelectrophoresis (IEP) shows bands only in the gamma region against Normal human Serum.
- Applications:** Suitable for use in ELISA. May be used for immunohistochemistry on formalin-fixed and paraffin-embedded sections. Each laboratory should determine an optimum working titer for use in its particular application.

**For Research Use Only**
