

	<h1>Rabbit anti-Human IgG(H&L) Antibody-FITC</h1>	E 6 1 C 0 0 2 0 3
--	---	---

Form of Antibody:	alin-fixed and paraffin-embedded sections. Each laboratory should determine an optimum working titer for use in its particular application.
Storage/Stability:	Short-term store at 2-8°C. Long term store at -20°C. Avoid multiple freeze/thaw cycles. If the reagent is being diluted, it is recommended that only the quantity to be used within one week be diluted.
Immunogen:	Purified Human IgG.
Purification:	>90% pure (SDS-PAGE). Immunoaffinity purified. Product is 0.2 micron filtered.
Reactivity:	heavy chains on human IgG and with the light chains on all human immunoglobulins. By Immunoelectrophoresis (IEP) shows bands only in the gamma region against Normal human Serum.
Applications:	Suitable for use in ELISA. May be used for immunohistochemistry on
